Gary,

I checked SEMS for information on the Frank J. Doyle Site in Leonard, Fannin County, Texas.

The site description in SEMS:
PCB'S IN SOIL ON & OFF-SITE. PHYSICAL/CHEMICAL THREAT TO THE POPULATION FROM DIRECT CONTACT WITH PCB
CONTAMINATED SOILS

The site was NFRAP – Site does not qualify for the NPL based on existing information.

SEMS indicated that Final Assessment Decision was dated 9/30/2001 (I did not find this document).

Attached are some documents I did locate in SEMS.
